

The Fourth International Conference
on
Differential and Functional Differential Equations
and Workshop

Moscow, Russia
August 14–21, 2005

The conference is devoted to classical topics of the theory of differential equations and different kinds of nonlocal interactions:

- bifurcations,
- ordinary differential equations,
- analytic aspects of dynamical systems,
- spectral theory,
- partial differential equations in functional spaces,
- linear and nonlinear problems of mathematical physics,
- semigroups of operators,
- asymptotic methods,
- singularly perturbed systems,
- attractors of evolution equations,
- boundary-value problems and nonlocal problems,
- functional differential equations and applications.
